A gold party is when a gold buyer comes to convention to buy all your League family and friend's unwanted; old; broken and ½ missing jewelry and "things." There is no sales pitch, no demonstration nor presentation to sit through. You bring all your items for sell with you to San Diego. You will consult with a gold buyer in private; they offer a purchase price, buy your gold and give you cash on the spot.

I personally went to my friend Maria's party (yes, I was skeptical) with my "things of gold" bag in hand. I even took my inherited gold crowns from my grandmother (dental gold) that I had stored in my button box and a pair of old broken gold wire-rimmed spectacles just to see if they were real gold. Wow, I never dreamed all of my stuff was worth \$480!

Got gold? Don't miss a perfect opportunity to cash in your gold – all jewelry; watches; heirlooms; dental gold; anything gold. You may bring a friend's jewelry too in a separate bag, the consultants will quote you a price and if you accept their offer, instant cash! This is a great way to make some extra "CA spending money."

You may visit the gold buyer's website www.gotgoldevents.com for more information.

So, sparkle, shimmer and shine at the League's Gold Buying Event and don't forget to RSVP – the gold consultants need to know how many potential sellers will be in attendance so they can plan accordingly.

This fundraising event will net the League 15% from the profits of the gold sold.
