

BOOKS ON SALE

This book is a wake-up call to the American people to take note of the post office in the community and to help it remain the vital local institution it has been for over a hundred years.

In its everyday work of delivering the mail and operating a national network of Post Offices, the U.S. Postal Service provides many benefits to the nation that do not show up on the balance sheet in its annual reports. Despite the great importance of these benefits to the lives of Americans, these public goods are frequently overlooked when the purpose of the Postal Service is discussed. It is understandable that in our utilitarian society, they can be undervalued and ignored, since these benefits aren't easily assigned a dollar value. An accurate estimate of the value of the Postal Service should, however, take into account the less tangible benefits created by such features of the institution as a national network of Post Offices, the hundreds of thousands of letter carriers on city streets six days a week, and the special postage rates for items that promote civic life and public welfare.

The National League of Postmasters is making copies of the book available to LEAGUE members. Call the LEAGUE office at (703) 329-4550 with your credit card information or send a check made out to the LEAGUE to:
